

Job Scoping Template

```
graph TD; A1[New Job: _____] --> B1[Reason why? _____]; B1 --> C1[What's the broader Issue? _____]; C1 --> A1; C1 --> A2[New Job: _____]; C1 --> B2[Reason why? _____]; B2 --> C2[What's the broader Issue? _____]; C2 --> A2; C2 --> B2; C2 --> D[Job: _____]; D --> E[What's the narrower issue? _____]; E --> F1[Barrier _____]; E --> F2[Barrier _____]; E --> F3[Barrier _____]; F1 --> G1[New Job: _____]; F2 --> G2[New Job: _____]; F3 --> G3[New Job: _____];
```

The diagram is a flowchart titled "Job Scoping Template". It starts with two parallel paths at the top, each beginning with a box labeled "New Job: _____". Each of these boxes has a curved arrow pointing down to a box labeled "Reason why? _____". From each "Reason why?" box, an arrow points down to a central yellow box labeled "What's the broader Issue? _____". This central box has a curved arrow pointing back up to the "New Job" box on its left and an arrow pointing up to the "New Job" box on its right. Below this central box is a box labeled "Job: _____". An arrow points down from "Job:" to another central yellow box labeled "What's the narrower issue? _____". From this second yellow box, three arrows point down to three separate boxes labeled "Barrier _____". Each "Barrier" box has an arrow pointing down to a final box labeled "New Job: _____".
